

Skin Needling (CIT) - And how it works

Skin needling is also called microneedling therapy or collagen induction therapy. It is a minimally invasive non-surgical and non-ablative procedure for facial rejuvenation, that involves the use of a microneedle to create controlled skin injury creating micro wounds, triggering the body to produce new collagen and elastin in the papillary dermis. New capillaries are formed. The new neovascularisation and neocollagenesis following treatment leads to reduction of scars and skin rejuvenation i.e improved skin texture, firmness and hydration.

Best beauty therapist in Melbourne!
- Victoria B. Toorak Vic.

Miracles on your skin facials at Luxe Skin Spa are a step above the rest. Every time I have gone I Have felt pampered, very relaxed and my skin is the best it's ever been when I leave.
- Sally D. Toorak Vic.

As a guy I didn't take too much care of my skin, just a bit of moisturiser. However after quite a few people commentated that it looked dry and flakey, I decided to do something about it. I now see Peggy regularly and people are now telling me how good my skin is looking.
- Desmond M. BrightonVic.

I have been going to see Peggy for my IPL treatments. She made me feel comfortable and at ease from my first visit. My results have been great. Thank you Peggy, highly recommend to anyone.
- Estelle C. Rosa. St Kilda Vic.

I had my first ever facial today. It was amazing Peggy really knew what she was talking about and I knew I was in good hands. Booked in again for my next facial, can't wait to go back.
- Bianca B. South Yarra Vic.
